

Sergey Shulubin - *Curriculum Vitae*

Software Engineer

Freelance UNIX admin/system programmer/web developer.

25+ years' experience as UNIX programmer/system administrator.

Building up Russian pioneer ISP Company.

15+ years of free-lance - web-development, scripting, UNIX system admin, web-site configuration/migration/backups, software installation/tuning.

My background in mathematics from a Master's Degree from University of St Petersburg has been invaluable in sourcing solutions to sometimes complex problems.

My expertise:

- a diversity of UNIX projects (PHP/Perl/bash), C programming, system administration (LAMP/nginx/cron/FTP/DNS/Postfix/Dovecot/Varnish etc.), software installation and upgrade, backup, data migration etc. with a wide variety of UNIX flavours (Amazon EC2/Ubuntu/Centos/Fedora/RedHat/Free BSD/BSDI/Solaris/AIX/SCO)
- web-development, mostly core PHP/MySQL, as well as HTML/JS/AJAX etc.
- general programming/scripting
- C/PHP/Perl
- custom scripts/web-apps to work with various APIs - Amazon S3, Google, YouTube, Facebook, Tumblr, OAuth etc.
- Audio/Video/Image processing - ffmpeg, imagemagick, GD, avisynth, lame, Photoshop etc.

My profile is on Hacker Rank: funster https://www.hackerrank.com/funster?hr_r=1

A profile and job history is at Upwork:

<https://www.upwork.com/freelancers/~0189b377f4bd718941>

Work history:

2015- present

www.inveseo.com

Development of various web projects, PHP/MySQL based, mostly custom CMS systems with templates for frontend, implementation of various API when needed, some of the projects that I worked on are:

www.mealflexibility.com

www.theitalianyachtgroup.com

www.apolloyachts.com

www.apollojets.co

www.stinghd.com

www.thebradleylawfirm.com

www.azimutyachtsforsale.com

www.wendystevens.com

www.kellyhyman.com

www.midnightboats.com

www.eclubgear.com

www.bicpens.com

www.amirentals.net

www.bocakitchens.com

www.commercialfinancepartners.com

www.ecotrikes.com

www.dellutrilawgroup.com

www.loanflight.com

2003-present

Freelance

Various projects, including PHP/MySQL development, custom PHP programming, Perl programming, 'C' programming, system administration, software installation/upgrades, history and feedback of many could be found on my upwork profile

<https://www.upwork.com/freelancers/~0189b377f4bd718941?viewMode=1>

2004-present

Peters & May

www.petersandmay.com

Development and support of backend web-system for yacht inventory, schedules etc. - PHP/MySQL

2003-2011

iMarketing (now pixelbrands.com)

Various web-development projects - PHP/MySQL

2002-2003

Whilst working in St Petersburg, I was invited to work in Sydney for an Australian company www.smarts.com.au which created and supported software for stock exchanges - flow analysis, alerts etc., work included support and upgrade of existing code written in 'C' and a couple of related projects including porting software to work on both big endian / low endian CPU UNIX system types (AIX/RedHat)

1994-2002

Peterlink

www.peterlink.ru is one of the first ISPs in Russia. My work involved creation and support of billing system with web interface (C/Perl/PHP), various related system programming and administration of UNIX servers
